PROFESSIONAL SUMMARY

Dynamic Computer Science undergraduate specializing in AI, Machine Learning, and Data Science, blending a strong technical foundation with a proven track record in digital content creation. Recognized for engineering automated, AI-driven digital workflows (n8n, LLMs) and producing viral short-form media reaching up to 780K organic engagement. Adept at bridging front-end web development with high-end visual storytelling to solve practical problems and scale brand presence. Seeking roles or internships in Web Development, AI Automation, or Creative Technology to leverage dual expertise in software engineering and digital media.

EDUCATION

Joy University (in collaboration with NIT) Sep 2026 – Present

Bachelor of Technology (B.Tech) - Computer Science and Engineering (AI, ML & Data Science)

First-Year Undergraduate

TECHNICAL & CREATIVE SKILLS

- **Web Development & Cloud:** HTML, CSS, Git/GitHub Version Control, Vercel CI/CD Deployment, Web Application Prototyping.
- **AI & Automation Engineering:** n8n Orchestration Ecosystems, Generative AI Node Integration, LLM Structured Prompting, Claude AI workflows, Google Sheets API.
- **Post-Production & VFX:** Adobe After Effects 2026, Premiere Pro, Photoshop, Boris FX Sapphire Plugins, Alight Motion, Color Correction, Audio Synchronization.
- **Digital Strategy:** Data-Driven Content Planning, SEO & Social Media Marketing, Brand Consistency, Project Requirement Translation.

PROFESSIONAL EXPERIENCE

Freelance Content Strategist & Video Editor 2026 – Present

Self-Employed | Kottayam, Kerala

- Direct end-to-end post-production for 4 core organizational clients (educational institutions and religious centers), specializing in institutional news reports, documentaries, and high-impact social media Reels.
- Achieve massive organic reach, driving Instagram Reels to peak engagements of 780K, 46K, and 40K through trend analysis and algorithmic content planning.
- Engineer AI-assisted production workflows utilizing Claude AI to optimize script development, creative briefs, and project turnaround times by integrating prompt engineering best practices.
- Execute advanced visual storytelling employing Adobe After Effects, Boris FX Sapphire, and meticulous color correction to ensure strict adherence to client brand guidelines.
- Manage client communications, scoping project requirements, negotiating deliverables, and handling payment processing for freelance media contracts.

TECHNICAL PROJECTS

Nearby Stock Finder (Full-Stack Web App Prototype)

- Developed and deployed a localized inventory tracking web application designed to eliminate search friction for non-technical retail operators.
- Architected the front-end styling using responsive HTML/CSS and established continuous deployment pipelines via Vercel.
- Managed version control and repository synchronization entirely through GitHub to ensure maintainable, scalable code.

AI Content Orchestration Pipeline (Automation & Generative AI)

- Built an automated social media content generation and learning showcase pipeline within the n8n ecosystem.
- Integrated Google Sheets API triggers, foundational LLM chains, and network outputs to programmatically generate, format, and stage digital content without manual intervention.

CERTIFICATIONS

- **Google Prompting Essentials Certification** – Google (Sept 2026)
- **Social Media Marketing Certification**
- **Digital Marketing Certification**
